- None reported.

### Service Interruptions:

- None reported.

# WEATHER OF CONCERN

## Weather of Concern

- Nothing significant to report.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

High pressure will produce dry and mild weather throughout the region until this afternoon. By this evening the high will weaken and move south as a winter weather system moves through the Pacific NW. The tail end of the cold front associated with the system will move into the far northern end of the region this evening and produce scattered light rain and mountain snow showers north of a line from Cape Mendocino to Alturas through Saturday afternoon. SW-W winds will gust to 30-40 mph in far northern and northeastern portions of the region tonight and Saturday, and to 50-60 in the most wind-prone mountain locations.

Computer models are now showing an offshore low pressure area becoming the main influence on the region's weather beginning Monday. The low will push warm moist air into the region from the SW, producing isolated to scattered mountain showers and occasional SE-SW breezes beginning Monday night. The rain and high elevation snow will increase in coverage and intensity beginning Wednesday.

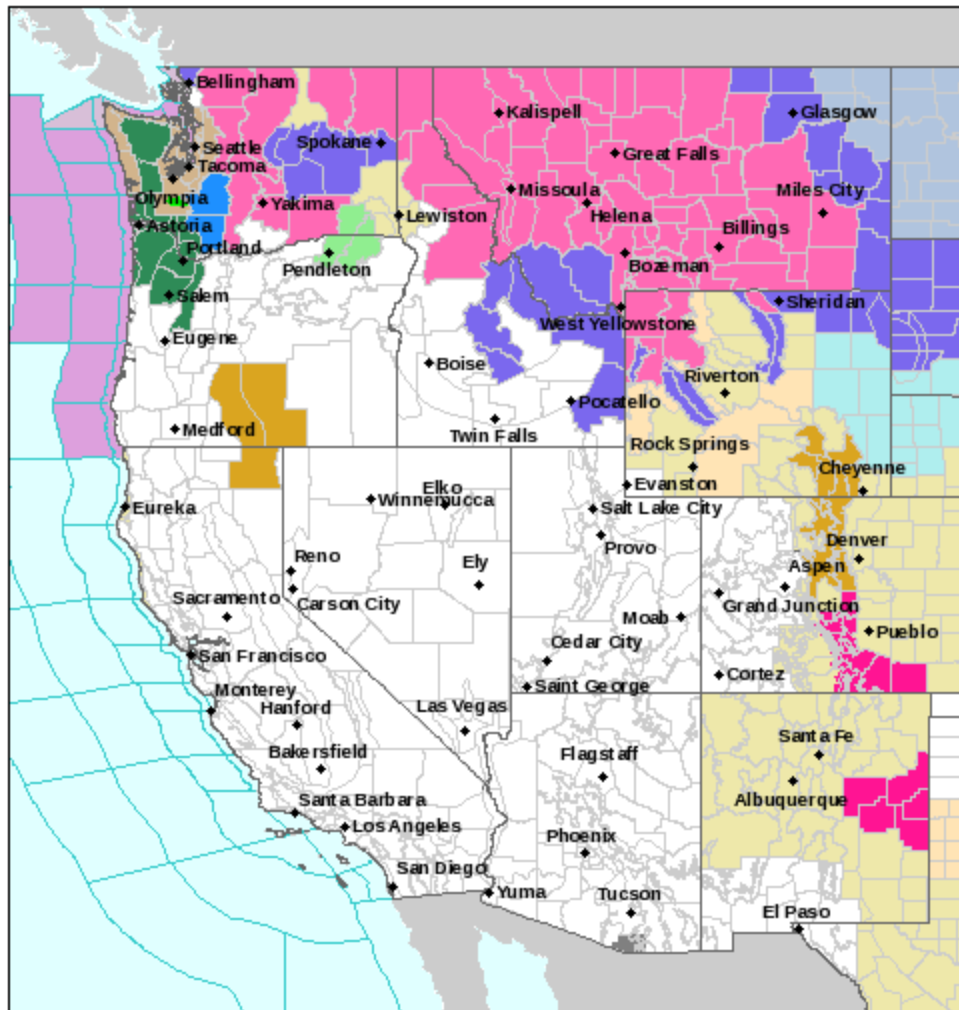

## **SOUTHERN CALIFORNIA**

Light offshore flow of 10-20 mph will continue over portions of the region before winds weaken before noon. Otherwise, expect light winds, sunny skies and near record high temperatures today. Expect highs to reach the 50s in the mountains to the mid 80s across lower elevations of the region. Minimum RH will drop into the 8-12% range over many areas away from the coast during the afternoon. But light winds and mostly clear skies should allow good recovery tonight. Over the weekend, expect a cooling trend as light onshore flow develops. There will be a very noticeable increase in high clouds which will also lead to cooler afternoon temperatures into early next week. By New Year's Day, temperatures will be only slightly above normal with highs in the 60s and lower 70s across lower elevations. Minimum RH will continue to be very low for 6-8 hours each afternoon into early next week. A weak low may draw some subtropical moisture into the area later next week. This may allow for a few light showers to develop Wednesday into Thursday morning. Any resultant rainfall looks to be very light and snow levels would be very high. Look for skies to remain cloudy heading into the following weekend. No significant offshore winds are expected the next 7-10 days.

OF EMERGENCY SERVICES

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2017-LAW-44280; 12/28/17 at 1300 hours:** AFRCC reported a Personal Locator Beacon activation at 39° 43.7N by 121° 51.3W which plots in an apartment complex parking lot in a heavily populated area of the City of Chico, Butte County. The device is unregistered and no additional information was available. Chico Police was advised and requested to check the area. That was done with no indication of distress. The device stopped transmitting. **Mission Closed.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene).
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County.
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fires. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene).
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene).
- **2017-SOC-43628:** FAST Team Lead to report to Ventura EOC. [Mission Closed](#).
